Based on 2017-2018 budget funds of Rs 22,662 crores is allocated for primary, secondary and higher education.

■ Innovative Modern Education System (IMES) - Simple, smart, stress free & skill based system will be introduced, which is exciting, useful & adoptable to the child's day to day life.

■ There will be no compulsion for the children up to 6 years to attend any anganavadi or kinder garden. This will be beneficial for the child to spend precious childhood time with their parents and improving the bonding with their family. However if both the parents are working, then they can opt for sending the child to anganavadi or kinder garden based on their choice.

■ Transport facility will be provided for all Government students and teachers. Infrastructure and facilities at all anganavadi and schools will be upgraded to the benchmarked levels (example: like Kendriya Vidyalaya)

■ Children in standard 1 and 2 will not have any reading or writing, instead will have game based learning sessions to develop interest in learning. Under

teacher's supervision they can get along with each other and while having fun gradually adopt themselves to the schooling atmosphere.

▣ Education will not be forcefully imposed on children, rather they will be introduced to our nature, plants, fruits, birds, animals and flowers etc. Focus will be on moral education like behavior, development of individual identity, environmental awareness, general cleanliness and personal hygiene. This will make the child to be more spontaneous and skillful.

▣ All Government school children from standard 3 will get notebook set along with electronic tablet (minicomputer) integrated with audio visual aids as a part of smart class initiative. English, Kannada & third language will be taught with basic grammar to facilitate reading, writing and vocabulary skills.

▣ General knowledge, social studies, mathematics, science & other topics which will be easily adoptable & aid in life skills will be integrated in an attractive teaching pattern in to the tablets provided. These tablets will include the complete syllabus and lessons up to 10th standard.

▣ Tablets will have cartoons, games, vedic mathematics, science, quiz, stories, moral lessons, experiments, animation, etc. which will be devised in an attractive & versatile manner. This methodology will enhance passionate learning abilities of specific things.

▣ Home schooling children will also get tablets free of cost. These tablets will help parents to teach children from 1st to 10th standard easily. In order to encourage such home schooling, Government shall provide incentives & guidance from nominated teachers.

▣ Government will provide tablets worth Rs 2600 crores for about 52,00,000 students.

▣ Based on parent's choice and convenience, provision for schooling, home schooling or online schooling will be provided.

▣ Along with their regular syllabus, children in standard 6, 7, & 8, will have practical skill based project work to enhance knowledge about day to day life requirements like Banking, Shopping, Traffic sense, Cooking, Plantation, Gardening, Farming, Hygiene, Cleanliness, IT Skills, Sports, Music, Cultural Activities, and Hospitality. These projects will be performed with

▣ Promotion and increment for teachers will be based on reverse evaluation points for teaching staff (anonymous rating points by students and parents).

▣ Government will ensure that the teachers will be trained for the new system of education with inputs on latest technology and methodology of teaching.

▣ After SSLC, Pre Professional Course (PPC) will be introduced. The course term will be for one or two years based upon requirements.

▣ Industry and Job oriented Professional Courses will be established, as per current & future market demand and latest technology. Industry will participate in formulating the syllabus for these PPC (Pre Professional Course). These courses will cater to the requirement of particular job, with practical training.

▣ Reserved for deserved: 15% of the students who have excelled in metric (10 standard) with merit will get complete sponsorship from Government for courses like PPC and PUC.

▣ Reserved for deserved: Students who have excelled (high ranking in CET and NEET) with merit will get complete sponsorship from Government. About 15%

of such meritorious students for engineering courses, further 30% of such meritorious students for medical courses and 20% of such meritorious students for all degree courses.

▣ 10% of the students with merit who prefer to continue further studies like post-graduation and masters will get government sponsored free education. The Students will have to give commitment for serving the government (with salary) for minimum 5 years. The commitment made so will be put to use depending on availability.

▣ There will be a New Rules in place to control the Private Schools and colleges charging exorbitant fees to parents and ceiling will be fixed based on the facilities provided by the institutions.

▣ The duration of courses like Diploma, ITI, Engineering, Degree, Masters and all other courses and their content will be upgraded based on needs and latest technology from time to time.

▣ To transform Innovative ideas into reality, Government will help such ideas to obtain patent and provide platform to interact with potential investors.
